PRESS RELEASE

Website: www.miponline.com

**COVINA, CA, USA - JULY 2009 - Moore's Ideal Products LLC,
Manufacturer of Top Selling Hop Up parts for the RC Car Industry,
Announces the Release of More New MIP Products for 2009.**

#09110 MIP Ball Diff Kit for Traxxas Jato 3.3 #5509 & #5510 MSRP \$35.00

This kit replaces the MIP #1625 Jato Ball Diff Kit.

Manufactured of hardened high strength alloy Diff Plates for great wear resistance and toughness. Hardened Output Shafts with O-rings to seal the Diff for smoother action. Ball Diffs allow the car to be forgiving through the corners, unlike gear diffs that can hang-up.
100% Quality made in the USA!

Support kits for #09110

# 09111 MIP Ball Diff Rebuild Kit for Jato 3.3	\$15.00
(09111) Replaces the MIP#1626 Rebuild Kit.	
# 09112 MIP 38T Ball Diff Gear for Jato 3.3	\$ 5.00
# 09113 MIP Diff Plate (long) for Jato 3.3	\$13.00
# 09114 MIP Diff Plate (short) for Jato 3.3	\$13.00

#09128 MIP C-CVD™ Kit for Team Associated SC10 MSRP \$35.00

This kit replaces the stock drive shafts in Associated kits #'s 7026, 7027, 7028, 7029, 70230, & 7031 with MIP durable NEW C-CVD™ drives. Made of hardened strength alloy used for high power electric systems. MIP **RED CAPTURE RINGS** for more confidence and reliability.
100% Quality made in the USA!

Support kits for #09128

# 09129 MIP C-CVD™ Axle for Associated SC10	\$ 8.00
# 08128 MIP C-CVD™ Bone for Associated SC10, RC10T4	\$ 8.00
# 08107 MIP C-CVD™ Re-Build kit for 3/16	\$ 5.00

#09108 MIP Aluminum Top Shaft for All Associated B4, T4 & SC10 MSRP \$12.00

This Aluminum Anodized Top Shaft replaces the stock 3 piece heavy steel version. 7075-T6 aluminum is lightweight and durable for increased acceleration. CNC machined to tight tolerances for superior bearing fits. **100% Quality made in the USA!**

#09127 MIP Aluminum Top Shaft for Losi Mini-T Series Vehicles MSRP \$10.00

This 14T aluminum top shaft of high strength alloy is used for high power electric systems. Light weight for quicker acceleration and breaking. It is a 1-piece gear and shaft for less backlash. **100% Quality made in the USA!**

MOORE'S IDEAL PRODUCTS, LLC
830 West Golden Grove Way
Covina, CA 91722

#09107 MIP Hard Coated Slipper Plates all Losi Mini-T, Mini-LST, Slider MSRP \$10.00

Kit replaces the plastic back plates with Hard Anodized Aluminum Plates for cooler and more consistent slipping without stickiness. **100% Quality made in the USA!**

#09115 MIP "Bi-Metal" Ball Diff Kit for Losi Mini-T, Mini-LST MSRP \$25.00

This kit fits entire Mini-T 1/18 line including Mini-Slider, Mini-Late Model, Mini-Desert Truck, & Mini-LST. MIP's "Bi-Metal" kit replaces the stock gear diff with durable steel drive cups & light weight thrust plates. Hardened high strength alloy used for high wear resistance.

Includes 9 Large 3/32" high grade ball bearings for accuracy and smoothness.

100% Quality made in the USA!

Support kits for #09115

#09116 MIP Ball Diff Rebuild Kit for Losi 1/18	\$12.00
#09117 MIP Outdrive Cup Ball Diff for Losi 1/18 (1)	\$ 6.00
#09118 MIP Output Plate "Bi-Metal" Ball Diff for Losi 1/18 (1)	\$ 5.00
#09119 MIP Gear 38T Ball Diff for Losi 1/18 (1)	\$ 3.50
#09120 MIP Diff Rings Ball Diff for Losi 1/18 (2)	\$ 3.00

#09121 MIP Aluminum C-CVD™ Kit for Losi Mini-T, Slider, and Losi Late Model #B0221, Desert Truck 3B0202 MSRP \$22.00

Kit replaces the stock drive shafts with MIP durable C-CVD™ Drives. Made of 7075-T6 aluminum alloy for lighter weight and quicker acceleration. **MIP Red Capture Rings** to eliminate tiny set screws and thread lock. Large diameter shafts for high power carpet racing.

100% Quality made in the USA!

Support kits for #09121

#09122 MIP C-CVD™ Rebuild Kit for 1/18 Mini Series	\$ 5.00
#09123 MIP C-CVD™ Alum. Bone for Losi Mini-T Series Kits	\$ 8.00
#09124 MIP C-CVD™ Axle for Losi Mini-T Series Kits	\$ 6.00
#09125 MIP C-CVD™ Red Capture Rings for 1/8th Mini Series (4)	\$ 4.00

#09126 MIP Aluminum Front Axles for Losi Mini Series (2) MSRP \$ 5.00

THIS KIT REPLACE & DISCONTINUES MIP#1558.

Axles made of aluminum aircraft alloy for high strength and improved lap times. Tumble polished, tight tolerance bearing shaft diameters to ensure proper bearing function.

100% Quality made in the USA!
