MIP NEWS FLASH!

COVINA, CA, USA - February 2012 - Moore's Ideal Products LLC,
Manufacturer of Top Selling aftermarket parts for the RC Car Industry,
Announces the Release of our newest Hi-Tech innovation.

"Real Shocks" Bypass1™ Piston Technology!

Unlike any piston seen before in the RC Industry. This Piston is design inspired by Real Off-Road Vehicles. The description of what these pistons are designed to accomplish will change your definition of how you thought a shock really should work. A noticeable problem was MIP's motivation for giving birth to "Real Shocks" Bypass1™ patent-pending technology, and what better shock design is there besides real off-road trophy truck shocks? MIP's top engineers studied and decoded the Off-Road Vehicle shocks, and came up with their very own version of shock bypass technology! For more information check out our new "Real Shocks" website.

MIP Bypass1™ SHOCK KIT for ASSOCIATED 2wd & 4wd BUGGY

- Now Full Scale Bypass technology engineered for RC Race Cars!
 - Precision machined pistons made from bearing grade plastics.
 - Color coded valves for easy set-up and assembly.
 - Octagon shaped pistons to reduce drag and keep the piston guided in the shock bore!
 - Dyno tested to match the rebound flow of stock pistons!
 - Direct replacement from stock shock pistons, no modifications necessary.
- 100% Quality made in the USA! Patents Pending U.S. and Abroad

TAKING ORDERS NOW! SHIPPING STARTS IN FEBRUARY.
