Thank you for choosing MIP Products, Since 1978. MIP Pucks™ are the latest development for Off-Road Racing. Please review the instructions before assembly. Visit [miponline.com](http://miponline.com) and become an MIPinsider to keep current with new MIP Products and to find Rebuild Kits to keep you running! Good Luck Racing!

Eustace Moore Jr., CEO Genius, MIP LLC.

**\*\*\*Do not use with Slipper (Gear Diff ONLY)\*\*\***

**NOTE:**  
Using a grinding wheel, shave 1 side of your front spring cups to ensure there is no rubbing between the Drive Bone and the Shock Spring Cups!

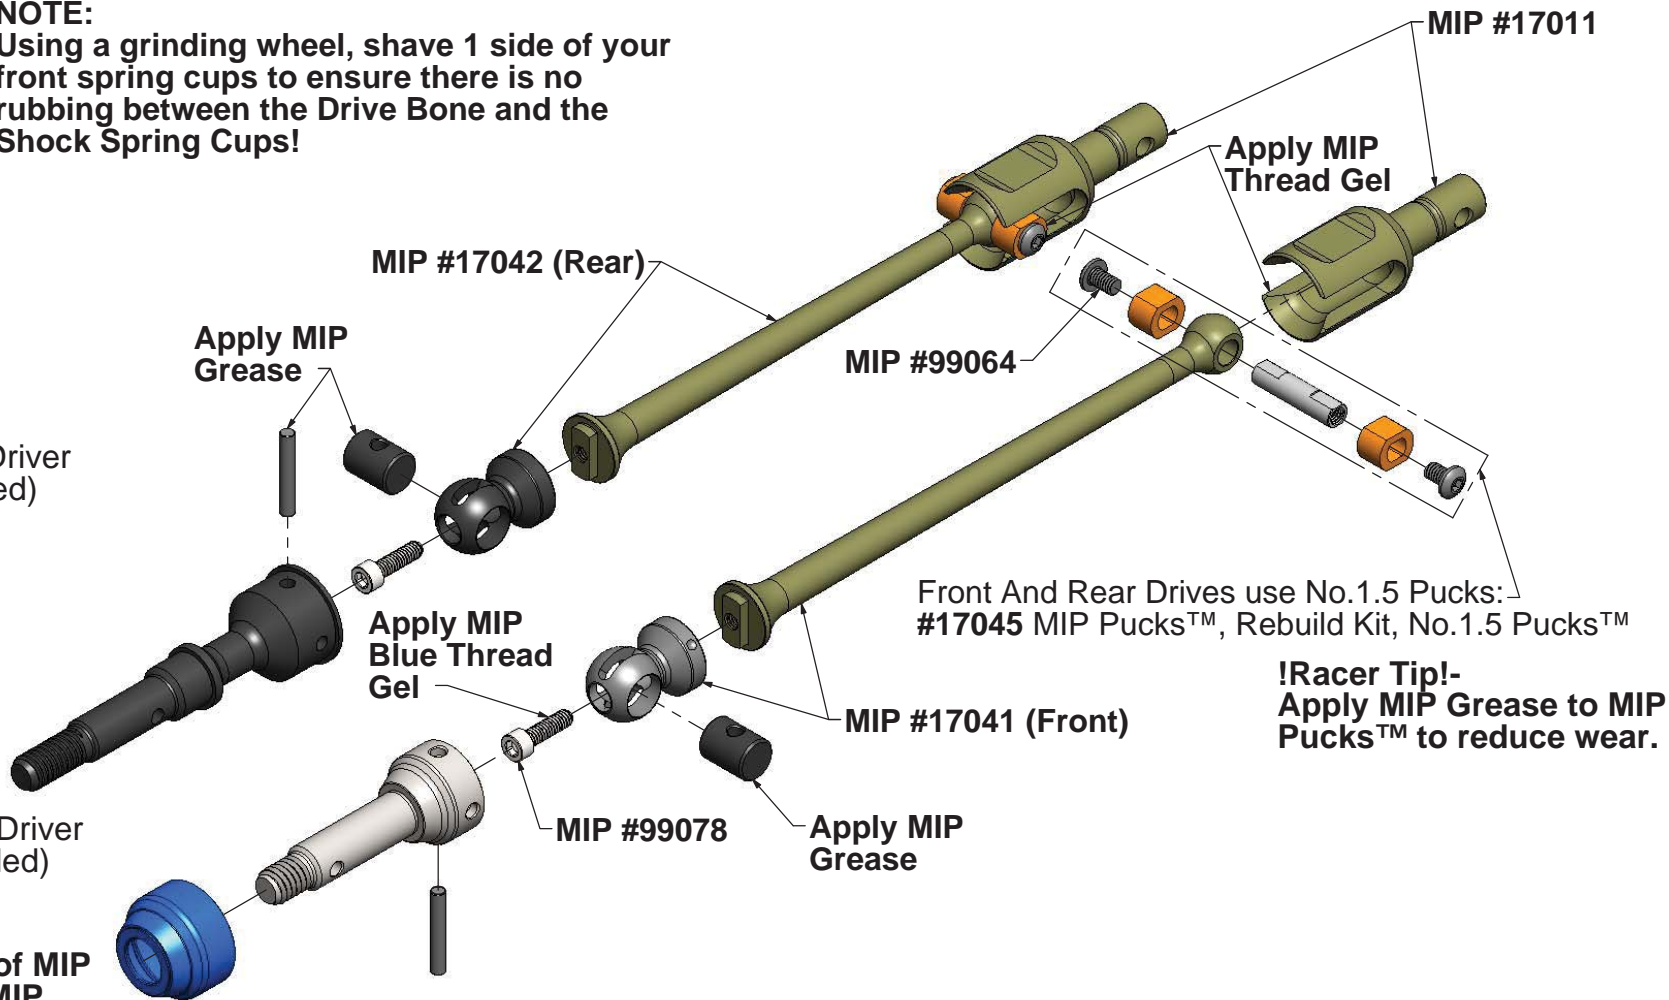

about .740 (~18.8mm)  
or until cup clears drive

.050" Hex Driver  
(Not Included)

.050" Hex Driver  
(Not Included)

**!Warning! -**  
Use a small amount of MIP Blue Thread Gel on MIP Pucks™ Pin Screws. Use two .050" wrenches as shown to tighten or loosen the screws.

**!Racer Tip!-**  
Apply MIP Grease to MIP Pucks™ to reduce wear.

**- Add a conservative amount of MIP Blue Thread Gel to all screws**
